OVERSEAS
CONSTRUCTION COMPANY

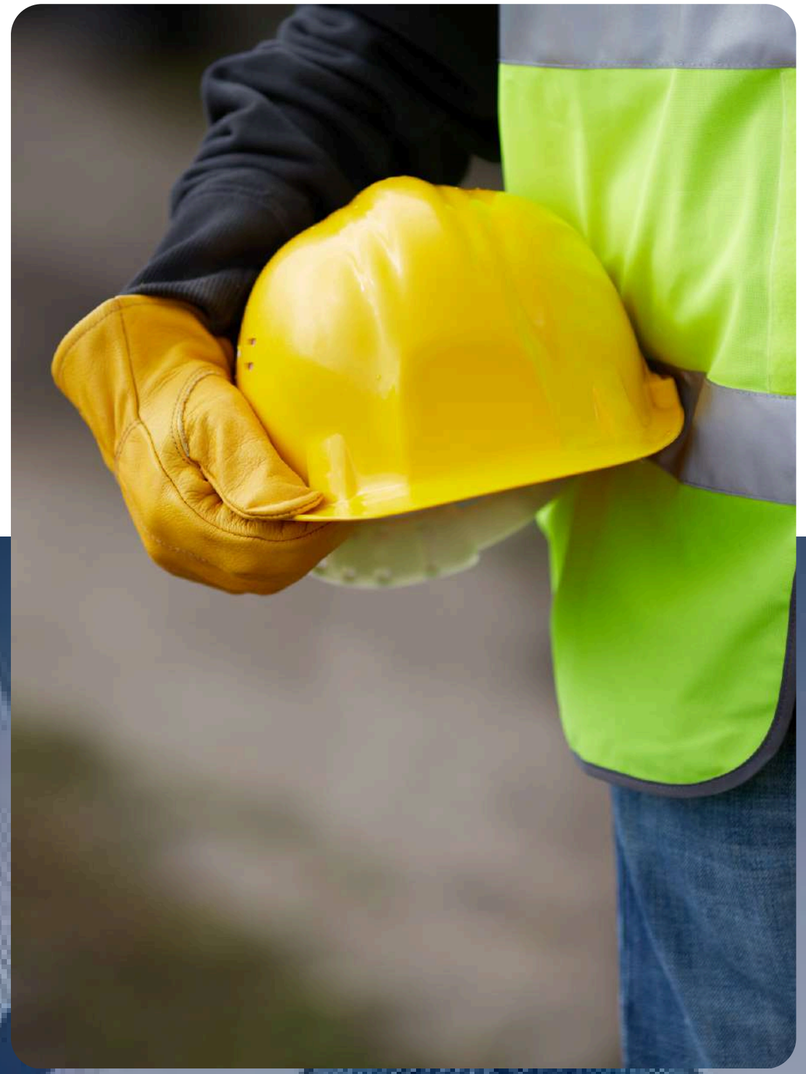
ABOUT US

Overseas for Construction Company (OCC) is an EPC contractor established in 2020, specializing in Oil & Gas, Electro-Mechanical works (MEP), and Industrial Construction.

With a strong foundation of international partnerships, certified compliance systems, and a highly skilled workforce, OCC is committed to providing end-to-end solutions and delivering safe, efficient, and high-quality project execution aligned with global standards.

EPC Solutions
Across Egypt &
Saudi Arabia
Since 2020



Our Vision

To be the most trusted global partner for complex engineering and construction projects, recognized for our commitment to safety, innovation, and reliability.

Our Mission

To deliver integrated, high-quality turnkey solutions that exceed client expectations through engineering excellence and disciplined execution.

Our Values

Collaboration

Working as "One Team" with clients and stakeholders to achieve shared success.

Integrity

Upholding the highest ethical standards, transparency, and accountability in every project.

Innovation

We embrace forward-thinking solutions that drive real-world impact.

Agility

We adapt quickly to changing needs and empower our clients to stay ahead.

Saudi Arabia

WHY ?

OVERSEAS
CONSTRUCTION COMPANY

One-Stop EPC Partner

Integrated solutions from engineering to commissioning.

Safety-Driven Execution

Strict adherence to international HSE standards.

Reliable Delivery

Commitment to schedules, quality, and cost efficiency

Technical Excellence

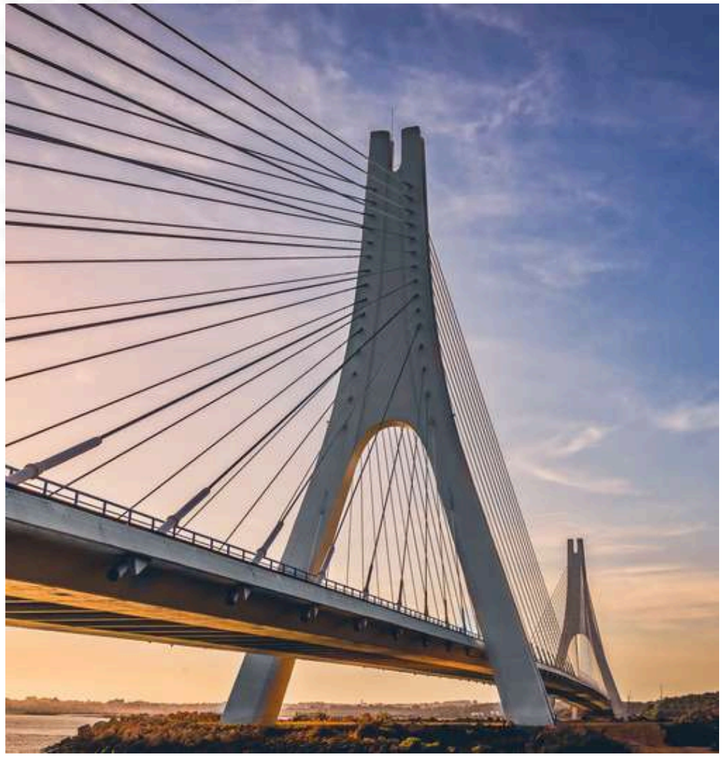
Advanced engineering expertise for complex projects

Industries We Serve

Delivering specialized EPC and industrial solutions across critical sectors.

Industries

- Oil & Gas
- Petrochemical
- Industrial Facilities
- Power & Energy
- Infrastructure
- MEP Projects



Our Services

We provide engineering, procurement, construction, fabrication, and industrial consultancy services tailored to oil & gas, industrial, and infrastructure projects.

01

Engineering & Design Services

Comprehensive engineering solutions from concept development to detailed execution

02

Consulting Services

Providing technical consultancy & risk management solutions for complex industrial projects.

03

Procurement Services

Efficient procurement and supply chain solutions supporting industrial and EPC projects

04

Industry Applications

Delivering specialized engineering, procurement, and construction solutions

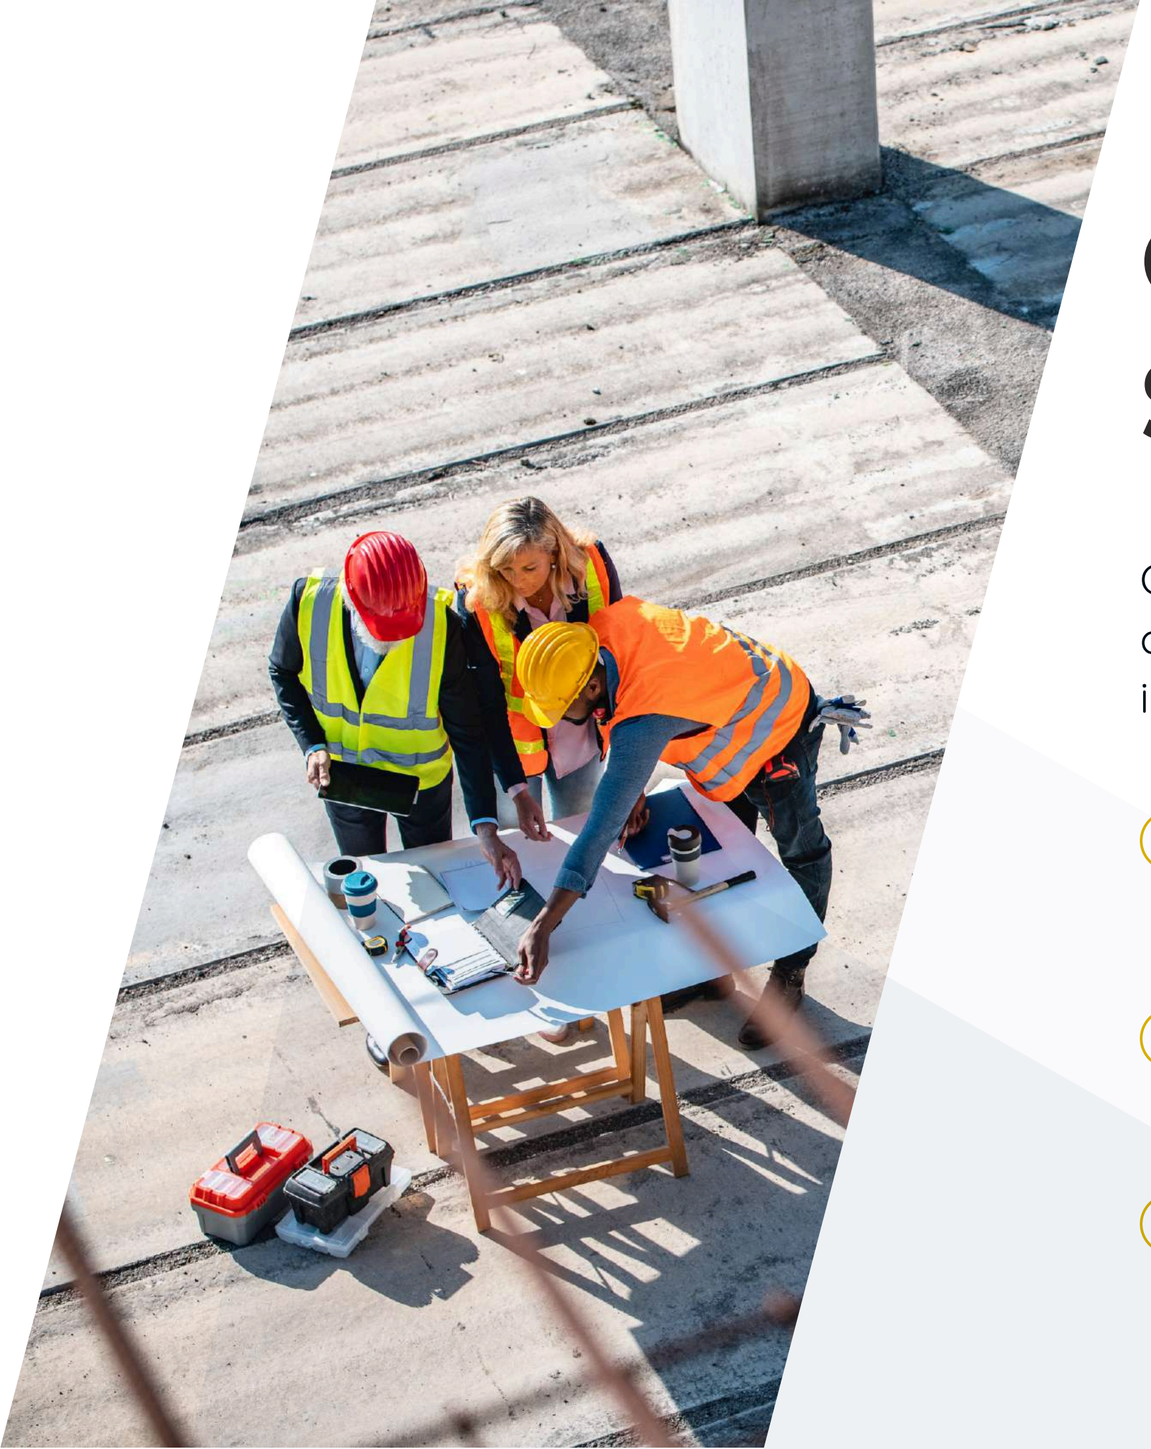
Engineering & Design Services

Comprehensive engineering solutions including FEED, detailed design, CAD modeling, planning, and technical documentation.

- FEED & Detailed Engineering
- 2D / 3D CAD Modeling
- Planning & Cost Estimation
- Technical Documentation

Strategic Procurement & Supply Chain

Strategic procurement services covering sourcing, logistics, vendor management, quality control, and contract administration.



Construction & Site Management

Comprehensive construction execution services covering civil, structural, mechanical, piping, electrical, instrumentation, and field supervision operations.

- Civil & Structural: Earthworks, piling, foundations, and heavy structural steel erection.
- Mechanical & Piping: Equipment setting (turbines, boilers, tanks) and high-pressure process piping.
- Electrical & Instrumentation (E&I): Power distribution, cabling, and the installation of complex control systems

Typical Industry Applications

Delivering specialized engineering, procurement, and construction solutions across energy, oil & gas, chemical, pharmaceutical, and mining industries.

- Energy & Power Infrastructure
- Oil & Gas Facilities
- Chemicals & Pharmaceutical Plants
- Mining & Processing Operations
